## Weapons, Ordnance, Munitions and Explosives (WOME) Safety (Intermediate) Course No: 402/097

Aim of Course	Outline of Syllabus	Remarks
<p>This course is designed for those responsible for managing activities involving Weapons Ordnance, Munitions and Explosives (WOME) in a defence environment. Its aim is to outline the areas of knowledge they need to be familiar with, in order to begin to discharge their duties with respect to WOME. It provides an overview of both the nature and properties of WOME, and the regulatory controls which are applied in Defence, to ensure that they do not present an intolerable risk to employees and the public.</p>	<ul style="list-style-type: none"> <li>• Basic explosives chemistry</li> <li>• Properties and progresses through explosion effects to applications in ordnance systems</li> <li>• Controlling the risk of explosives</li> <li>• Relevant Health and Safety Legislation in the UK and associated regulations</li> <li>• MOD policy, standards and internal regulations, classification, storage, security and conveyance of explosives, range safety and accident reporting and investigation.</li> </ul>	<p>Capacity is 25 personnel.</p>
