EXPLANATORY NOTES

AGREEMENT

1. This NATO Standardization Agreement (STANAG) is promulgated by the Director NATO Standardization Agency under the authority vested in him by the NATO Standardization Organisation Charter.
2. No departure may be made from the agreement without informing the tasking authority in the form of a reservation. Nations may propose changes at any time to the tasking authority where they will be processed in the same manner as the original agreement.
3. Ratifying nations have agreed that national orders, manuals and instructions implementing this STANAG will include a reference to the STANAG number for purposes of identification.

RATIFICATION, IMPLEMENTATION AND RESERVATIONS

4. Ratification, implementation and reservation details are available on request or through the NSA websites (internet <http://nsa.nato.int>; NATO Secure WAN <http://nsa.hq.nato.int>).

FEEDBACK

5. Any comments concerning this publication should be directed to NATO/NSA – Bvd Leopold III - 1110 Brussels - BEL.

NATO STANDARDIZATION AGREEMENT
(STANAG)

EXCHANGE OF SAFETY INFORMATION CONCERNING AIRCRAFT AND MISSILES

- Annexes:
- A. Flight Safety Agencies
 - B. Aircraft Operated by Nations
 - C. Unclassified Missiles used by Nations
 - D. Unmanned Aerial Vehicles (UAV)

Related Document:

STANAG 3318 AMD - AEROMEDICAL ASPECTS OF AIRCRAFT ACCIDENT
AND/OR AEROMEDICAL INCIDENT INVESTIGATION

AIM

1. The aim of this agreement is to establish procedures for the exchange of safety information peculiar to aircraft types and missiles in current use by nations.

AGREEMENT

2. Participating nations agree that:
 - a. The flight safety agencies listed in Annex A are authorized direct and timely exchange of safety information concerning common use aircraft or missiles. That information may be derived from accidents/incidents or any other source that relates directly to the safe operation of those aircraft and missile systems.
 - b. The exchanged information will not include copies of accident/incident reports which are considered privileged under the laws or regulations of a nation, but will include sanitized extracts from the reports. Accident prevention information which is privileged due to national copyright (normally films and videotapes) should where possible be included with a copyright waiver, so that nations may complete their own national distribution.
 - c. Updating information for their nation portions of Annexes B and C, or a nil return, will be forwarded to the Custodian at Flight Safety Panel meetings.
 - d. The Custodian will update the STANAG by editorial amendment within four months after the Flight Safety Panel meeting.

IMPLEMENTATION OF THE AGREEMENT

3. This STANAG is implemented when a nation has issued the necessary orders/instructions to the forces concerned putting the procedures detailed in this agreement into effect.
